

Reviewers Help

Entry into the Review Section

At first, go to www.aassjournal.com

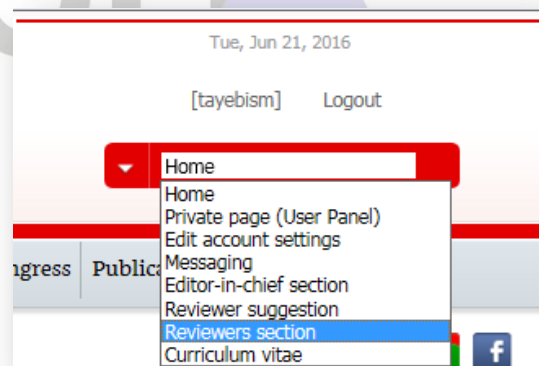

a) Enter your Username and Password in “Login” pane.

b) Click on “List Button”.

c) Select “Reviewers section”.

Reviewer zone has 5 sections:

1. “Review Procedure Quick Help”

2. “1. New articles” and its “Attachments:”

✓ You can download the article by clicking on  from “Download”.

- ✓ You can start the review process by clicking on  from “Start”.
- ✓ You can cancel the review process by clicking on  from “Cancel”.

1- New articles

New articles means the articles newly assigned to be reviewed by you. These articles selected based on your specialty. You can download and study the article by clicking on download button. Then you may click on start button and begin the review process and filling the review form. Also if you feel you can not review this article for each reason, you can click on cancel button to remove the article from the list.

#	Review code	Title of article	Assign date	Subject	Download	Profile	Start	Cancel
1	53-344-1	Regular Exercise or Food restriction which is better in the heart failure? With approach to oxidative stress and angiogenesis	2016/06/12 Primary review	Sport Physiology and its related branches				

Attachments:

■	Ann. Appl. Sport Sci.-attach-276.docx	No Description		2016/03/27		1464 KB	
■	Ann. Appl. Sport Sci.-attach-277.docx	No Description		2016/03/27		15 KB	

3. “2. Uncompleted reviews” and its “Attachments:”

If you start the review process and cannot complete the review form at the time, you can check mark the “Save the form as a draft and continue later” tab and then click on "Save records and let me edit it" at the end of form.

Save the form as a draft and continue later

[Save records and let me edit it.](#)

Note: if you want to complete the review process, don't check mark the “Save the form as a draft and continue later”, and so, directly click on "Save and send the form".

Save the form as a draft and continue later

[Save and send the form](#)

After this action, your review zone changes as follows:

2- Uncompleted reviews

These list consist of the articles that you have filled the review form for those, but you steel did not complete this form. You can complete the review form or even ch'ange your previous view of points. Then when you complete the reviewing steps you can click on confirm button to move the articles to the third list.

#	Review code	Title of article	Assign date	Subject	Download	Profile	Edit & Confirm
1	53-344-1	Regular Exercise or Food restriction which is better in the heart failure? With approach to oxidative stress and angiogenesis	2016/06/12 Primary review	Sport Physiology and its related branches
